

3M SID™ SID comfort tool

SID comfort tool

SID scissor kit

The SID comfort tool is the standard tool for all data and telephone cabling with the SID system.

The SID comfort tool allows safe low impact contact termination of connection or disconnection modules.

The termination and cutting of the wire is made in one action. The cutting is performed only after secure termination.

The hook of the tool allows easy removal of terminated wires.

A scissor kit is available for replacement of damaged scissors.

Features

- Safe contact termination
- Cutting is performed only after secure termination

Benefits

- Termination and cutting of the wire in one action
- Low impact
- Ergonomic design

Specification
