

Euromod Keystone Jack Fascia 25 x 50mm unloaded & wall plates

molex

The unloaded Euromod Keystone Jack Fascia is specifically designed to accept the Molex Keystone Jack product range.

The angled design reduces bend cord radius particularly in shallow floor box installations. The fascia is supplied with an integral spring loaded shutter for dust protection and a labelling window facility. The white Euromod Keystone Jack fascia is designed to fit into the white single gang (86 x 86mm) and double gang (86 x 145mm) wall plates, which are manufactured from the same colour matched material.

IMPORTANT INSTALLATION NOTE:

The unloaded fascia must be snapped into the wall plate before the terminated Keystone Jack is assembled into the fascia. For full installation instructions go to the Molex website: <https://www.molex.com/resource-library/installation-instructions/>

Features and Advantages

Integral spring loaded shutter

Protected labelling facility

RoHS compliant

25 x 50mm angled fascia

Compatible with Keystone Jacks

Matching single and double gang wall plates

Euromod Keystone Jack fascias are compatible with adapter collar part no's 17-0231-02 and 17-0232-02 when UTP Keystone Jacks are installed. The collars are not compatible with these fascias and shielded jacks.

Specifications

MECHANICAL
