

Spec sheet

The Airflow Coupling is the original quick release "PCL" with around 75 years of design enhancement. This product, along with the Standard Adaptor, is still manufactured in the UK to the highest possible standards, with the "Made in Sheffield" Airflow series now a benchmark in the UK for quality and reliability.

Suitable for most compressed air applications - particularly fixed applications where the coupling is used over a workbench and a single action is preferred.

Maximum Flow Rate	43 cfm @ 100 psi
Weight (kg)	0.120000
Old Skus	AC21CM02
UOM	Ea
ean	5014875330884
Brand	PCL
Condition	New
Style	Coupling
Thread Type	Male
Thread Size	R 1/4
Nominal Bore (mm)	5
Flow Rate	43 cfm @ 100 psi
Maximum Working Pressure	14 bar / 200 psi
Temperature Range	

Material	-40°C to 100°C
Interchange	Steel
Packaging	Rectus 19, Kee 057 Series, OETIKER SC Series P, Ludecke ESB
	Bulk
