

USB Active Extension Cable USB3.0 A Plug A Socket

Technical information

Introduction

Extender cable allows users to extend the distance between the computer and USB devices up to 10m. These cables provide high performance data transmission that utilises USB 3.1 Gen1 data bandwidth up to 5Gb/s and also backward compatible with USB 2.0/1.1 standard. Plug and play and no additional software installation required.

Part Codes

797642 Active USB 3.0 Cable —5Mtr
808813 Active USB 3.0 Cable —10Mtr

USB Performance

Attributes		Key Features
Connection, type	USB 3.0 male (type A)	• SuperSpeed data transmission at up to 5 Gbit/s
Connection 2, type	USB 3.0 female (Type A)	• 10 times faster than USB 2.0
Cable type	round cable	• interference-free signal flow thanks to copper conductor and double shielding
Inner conductor material	CU (copper)	• max. 2 extensions can be connected for a total length of 10 m
Number of shieldings	2 x	• compatible with Windows 2000, XP, VISTA, 7, 8, 10
max. transmission rate	5 Gbit/s
